There was no stopping us now, and I talked her through the ass fuck in a way that calmed her and enabled her to give herself to me completely. At first, she concentrated only on the piercing pain of penetration, but as I whispered in her ear, and fucked her virgin precinct in infinitesimal degrees, she trusted, and let me push into her deepest region. "Talk to me, please keep talking to me," she pleaded, and I tried my best to satisfy her. "I love to feel every part of you opening up to me," I said, and with that shoved my cock as far up her ass as I could, making her lithe body convulse with the force. She wanted me to come now; she wanted to feel it all over her, in her ass, on her tits, on her face, in her mouth. I tried to oblige, but if I had spewed a volcano of come it wouldn't have been enough for Jaimie.
