INFO (312) 384-5813

A condom should cover the penis to the base so that the shaft is not exposed to infection

STEP 1

Hold the tip of the condom to squeeze out the air. This leaves some room for the semen when you come (ejaculate). Put the condom on the end of your penis.

STEP 2

Keep holding the tip of the condom. Unroll it onto your erect penis...

INSTRUCTIONS
FOR SAFER
CONDOM USE!

STEP 3

...all the way down to the hair.

4. Put the condom on before you enter your partner.

It may take some experimenting to find the variety that's right for you.

USE IT RIGHT
